Background

CH 516 Acts of 2011 created the Film Production Activity Tax Credit (Film Tax Credit). The Act repealed the then existing Film Production Rebate Program and replaced it with a tax credit for qualified direct costs of qualified film production activities including feature films and television series. Under the Film Tax Credit, the Department of Commerce (Commerce), formerly the Department of Business and Economic Development (DBED), could award a maximum of \$7.5 million in credits in each fiscal year beginning in FY 2012 through FY 2014. Qualifying production activities were eligible for a tax credit of up to 25% of the qualified direct costs for a feature film and 27% for a television series. If the amount of the tax credit exceeded the total tax liability in the tax year, the entity could claim a refund in the amount of the excess. The Act became effective on July 1, 2011 with a sunset date of June 30, 2014.

A total of \$22.5M (\$7.5 per FY) in tax credits was available for FYs 2012 through 2014. All of those tax credits were committed by January 2012 to six productions: *House of Cards - Season 1*; *VEEP - Seasons 1 & 2*; *Jamesy Boy*; *Better Living through Chemistry*; and, *Ping Pong Summer*.

In order to retain the filming of the two television series *House of Cards* and *VEEP* in Maryland, CH 28 Acts of 2013 authorized \$32.5 million in additional film tax credits over three years and extended the sunset through FY 2016. All of the tax credits were committed by the end of the first day Commerce began accepting applications (April 17, 2013). Those credits were committed to *House of Cards – Season 2* and *VEEP – Seasons 3 & 4*.

During the 2014 legislative session, House Bill 520 Business and Economic Development – Film Production Activity Tax Credit Program was introduced to increase the amount of tax credits the Secretary could issue in FY 2015 from \$7.5 million to \$11 million. Senate Bill 1051 Business and Economic Development – Film Production Activity Tax Credit Program was also introduced and proposed an increase from \$7.5 million to \$18.5 million. Both bills passed with amendments but failed to pass before the end of the legislative session. SB172 - the Budget Reconciliation and Financing Act - authorized funds from the Economic Development Opportunities Fund (Sunny Day) and Special Fund for Preservation of Cultural Arts to provide a \$7.5 million grant to enhance the Film Tax Credit, thus providing \$11.5 million in incentives for *House of Cards – Season 3*.

Senate Bill 905, Income Tax – Film Production Activity Tax Credit, introduced in the 2015 legislative session, was originally proposed to increase the amount of tax credits available for production activity in a fiscal year and extend the program's sunset date (\$25 million per fiscal year through FY 2019). However, during the last week of the session, the bill was amended to create the Film Production Tax Credit Reserve Fund with no funding attached. The new structure of the program required the Department to report the amount of tax credits necessary to maintain the current level of film production activity and to attract new production activity to the Governor. This amount would then be considered for inclusion in the Governor's FY budget and acted upon by the General Assembly during the legislative session. In addition, some new reporting and promotional requirements were mandated. The legislation went into effect on July 1, 2015.

As previously stated, in 2018, the legislature passed Senate Bill 1154 which (1) repealed the Reserve Fund, (2) eliminated the sunset on the program, (3) authorized specific tax credit funding for each fiscal year through FY 23 and beyond, (4) capped the maximum amount per project at \$10 million, and (4) created a new category of films, Maryland small and/or independent productions (Maryland Small Films), eligible for the tax credit. The legislation also mandated that 10% of the annual authorized credit amount must be set aside for Maryland Small Films.

In 2019, the statutory requirement that in order to qualify as a Maryland Small Film an entity must be organized in Maryland for at least one year was altered to at least three months. In 2020, the BRFA fixed the annual authorized credit amount for the program at \$12 million for FY 2021 and beyond. And in 2022, legislation was passed to include digital animation projects as eligible for film production activity tax credits.

During the 2023 legislative session, Senate Bill 452 – Income Tax – Film Production Activity Income Tax Credit – Alterations and Maryland Entertainment Council was introduced and passed. Enacted on July 1, 2023, the legislation expanded the eligibility to include documentaries and talk, reality, and game shows; altered the definition of “total direct costs” to include compensation for writers, directors and producers; increased the percentages of total direct costs that qualify for the tax credit to 30% for series and 28% for feature films and Maryland Small Films; authorized \$15 million in tax credits for FY 2024, \$17.5 million in FY 2025, \$20 million in FY 2026 and \$12 million in FY 2027 and beyond; and, removed the reporting requirement from the statute.

In addition, the legislation established the Maryland Entertainment Council (MEC) to study and make recommendations regarding Maryland’s film, television, and entertainment industry.
