Maryland Film Production Activity Tax Credit

Overview

Maryland first began offering production incentives in 1999 with the passage of the sales and use tax exemption for film production activity. The wage rebate grant program was added in 2005 and in 2007 was amended to become the Film Production Rebate Fund. In 2011, the rebate program was repealed and replaced with the Maryland Film Production Activity Tax Credit. The structure of the film production incentive program has changed over the course of the past 25 years and the funding has fluctuated from a low of \$550,000 in FY 2010 to a high of \$25 million in FY 2014.

Qualifying production activities are eligible for a tax credit of up to 28% of the qualified direct costs for a feature film and 30% for a television series. If the amount of the tax credit exceeds the total tax liability in the tax year, the entity may claim a refund in the amount of the excess. To qualify, a production must apply for qualification for tax credits before beginning the production activity in the State; must incur at least \$250,000 in qualified direct costs in Maryland; and must film at least 50% of the production activity in Maryland. 10% of the annual allocation is reserved for Maryland small and independent film productions (Maryland Small Films) with qualified direct costs in Maryland of \$25,000 - \$500,000. Maryland Small Films are eligible for a tax credit of up to 28% of their qualified direct costs. By statute, production activities with direct costs over \$250,000 are limited to no more than \$10M in tax credits per project. Maryland Small Films are limited to \$125,000.

The most recent adjustment to the program was in 2023 with the passage of Senate Bill 452 - Income Tax - Film Production Activity Income Tax Credit - Alterations and Maryland Entertainment Council which made the following changes to the Maryland Film Production Activity Tax Credit:

- 1) The eligibility for the tax credits was expanded to include documentaries and talk, reality, and game shows (digital animation projects were included as eligible the previous year);

- 2) The “total direct costs” now include the salary, wages, and other compensation paid to Writers, Directors and Producers;
- 3) The percentages of total direct costs that qualify for the tax credit were increased to:
 - a) 28% for feature films and Maryland Small Films and
 - b) 30% for series;
- 4) The statute authorized \$15 million in tax credits for FY 2024, \$17.5 million in FY 2025, \$20 million in FY 2026 and \$12 million in FY 2027 and beyond; and,
- 5) Removed the reporting language from the statute.

In addition, the legislation created the Maryland Entertainment Council (MEC) to study and make recommendations regarding Maryland’s film, television, and entertainment industry. In 2024, House Bill 1487 retitled the MEC the Maryland Entertainment Industry Council (MEIC) and officially established the Council within the Department of Commerce.

A detailed background of the Maryland Film Production Activity Tax Credit program can be found at the end of this report.

Specifics

The film industry was essentially shut down in 2023 when, for the first time in decades, writers and actors simultaneously went on strike. As contract negotiations stalled, the Writer’s Guild of America (WGA) walked out on May 2, 2023, followed by the Screen Actors Guild - American Federation of Television and Radio Artists (SAG-AFTRA) in July. A new contract was not agreed upon by the WGA until September 26, 2023. SAG-AFTRA reached an agreement on November 8, 2023. Unfortunately, the International Alliance of Theatrical Stage Employees (IATSE) began renegotiations on their contracts concurrently. In July, a tentative agreement was struck for “Pink Contract” workers (Broadway and theatrical employees). However, the current Basic Agreement and Area Standards contract ended on July 1, 2024. The threat of another major labor strike loomed on the horizon. Afraid of being “shut down,” filmmakers adopted a “wait-and-see” posture and very few productions moved forward, even after the agreements were reached with the writers and actors.

The Maryland Film Office began accepting applications for qualification for FY 2024 tax credits at 9:00 a.m. on Wednesday, July 5, 2023. While large-scale, big-budget filmmaking was primarily on hold in the US, some production was still occurring in Maryland.

One amended application for qualification for FY 2024 tax credits was submitted and approved in FY 2024.

Duck Hook LLC initially applied to qualify for a Film Production Activity Tax Credit for its limited docuseries *Born Evil* on May 16, 2023. They were approved and received a Letter of Qualification on June 1, 2023. Principal photography began on May 27, 2023. As filming was scheduled through October, Duck Hook LLC submitted an amended application on July 5, 2023, to benefit from statutory changes altering the definition of direct costs and the percentage used to

calculate the amount of tax credits. Based on the company's amended application, a 30% credit of the estimated total of authorized direct costs in Maryland would qualify Duck Hook LLC for a maximum of \$283,500.00 in tax credits.

Three applications for qualification for FY 2024 tax credits were submitted and approved in FY 2024.

MegaMind Media LLC applied for tax credits for its feature film, *Fighting to Be Me*, on April 5, 2024. Based on the company's application, a 28% credit of the estimated total of authorized direct costs in Maryland would qualify MegaMind Media LLC for a maximum of \$259,034.00 in tax credits.

Smooth Sailing Productions, Inc. applied for tax credits for its unscripted series, *Million Dollar Marlin: Season 1*, on May 23, 2024. Based on the company's application, a 30% credit of the estimated total of authorized direct costs in Maryland would qualify Smooth Sailing Productions, Inc. for a maximum of \$962,465.00 in tax credits.

The Upside Movie Company LLC applied for tax credits for its feature film, *The Upside of Unrequited*, on June 3, 2024. Based on the company's application, a 28% credit of the estimated total of authorized direct costs in Maryland would qualify The Upside Movie Company LLC for a maximum of \$196,000.00 in tax credits.

The final tax credit amount for each production, however, will be based on the companies' actual qualified direct spend determined upon conclusion of the production activity in the State and after the application for final tax credit certification and all closing documentation, including a Report on Agreed Upon Procedures from an independent, third-party CPA, have been submitted and reviewed. The MFO anticipates the final amount of tax credits issued to these productions to remain at the maximum amount reserved.

Two amended applications for qualification for FY 2024 tax credits for Maryland Small Films were submitted and approved in FY 2024.

Stolen Street LLC of Baltimore initially applied to qualify as a Maryland Small Film for a Film Production Activity Tax Credit for its feature film *Stealing Cars* on May 2, 2023. They were approved and received a Letter of Qualification on May 22, 2023. Principal photography began in June and continued into July. Stolen Street LLC submitted an amended application on July 21, 2023, to benefit from statutory changes altering the definition of direct costs and the percentage used to calculate the amount of tax credits. Based on the company's amended application, a 28% credit of the estimated total of authorized direct costs in Maryland would qualify Stolen Street LLC for a maximum of \$47,906.00 in tax credits.

Cinematic Productions LLC of New Market initially applied to qualify as a Maryland Small Film for a Film Production Activity Tax Credit for its feature film *For Sale by Exorcist* on March 24, 2023. They were approved and received a Letter of Qualification on April 20, 2023. Principal photography began in April and continued into August. Due to delays in production and post-production, as well as to benefit from statutory changes altering the definition of direct costs and

the percentage used to calculate the amount of tax credits, Cinematic Productions LLC submitted an amended application on May 17, 2024. Based on the company's amended application, a 28% credit of the estimated total of authorized direct costs in Maryland would qualify Cinematic Productions LLC for a maximum of \$26,750.00 in tax credits.

Background on the Film Production Activity Tax Credit Program

Maryland first began offering production incentives in 1999 with the passage of the sales and use tax exemption for film production activity. The wage rebate grant program was added in 2005 and in 2007 was amended to become the Film Production Rebate Fund.

CH 516 Acts of 2011 created the Film Production Activity Tax Credit. The Act repealed the then existing Film Production Rebate Program and replaced it with a tax credit for qualified direct costs of qualified film production activities including feature films and television series. Under the Film Tax Credit, the Department of Commerce (Commerce), formerly the Department of Business and Economic Development (DBED), could award a maximum of \$7.5 million in credits in each fiscal year beginning in FY 2012 through FY 2014. Qualifying production activities were eligible for a

tax credit of up to 25% of the qualified direct costs for a feature film and 27% for a television series. If the amount of the tax credit exceeded the total tax liability in the tax year, the entity could claim a refund in the amount of the excess. The Act became effective on July 1, 2011 with a sunset date of June 30, 2014.

A total of \$22.5M (\$7.5 per FY) in tax credits was available for FYs 2012 through 2014. All of those tax credits were committed by January 2012 to six productions: *House of Cards - Season 1*; *VEEP - Seasons 1 & 2*; *Jamesy Boy*; *Better Living through Chemistry*; and, *Ping Pong Summer*.

In order to retain the filming of the two television series *House of Cards* and *VEEP* in Maryland, CH 28 Acts of 2013 authorized \$32.5 million in additional film tax credits over three years and extended the sunset through FY 2016. All of the tax credits were committed by the end of the first day Commerce began accepting applications (April 17, 2013). Those credits were committed to *House of Cards – Season 2* and *VEEP – Seasons 3 & 4*.

During the 2014 legislative session, House Bill 520 Business and Economic Development – Film Production Activity Tax Credit Program was introduced to increase the amount of tax credits the Secretary could issue in FY 2015 from \$7.5 million to \$11 million. Senate Bill 1051 Business and Economic Development – Film Production Activity Tax Credit Program was also introduced and proposed an increase from \$7.5 million to \$18.5 million. Both bills passed with amendments but failed to pass before the end of the legislative session. SB172 - the Budget Reconciliation and Financing Act - authorized funds from the Economic Development Opportunities Fund (Sunny Day) and Special Fund for Preservation of Cultural Arts to provide a \$7.5 million grant to enhance the Film Tax Credit, thus providing \$11.5 million in incentives for *House of Cards – Season 3*.

Senate Bill 905, Income Tax – Film Production Activity Tax Credit, introduced in the 2015 legislative session, was originally proposed to increase the amount of tax credits available for production activity in a fiscal year and extend the program’s sunset date (\$25 million per fiscal year through FY 2019). However, during the last week of the session, the bill was amended to create the Film Production Tax Credit Reserve Fund with no funding attached. The new structure of the program required the Department to report the amount of tax credits necessary to maintain the current level of film production activity and to attract new production activity to the Governor. This amount would then be considered for inclusion in the Governor’s FY budget and acted upon by the General Assembly during the legislative session. In addition, some new reporting and promotional requirements were mandated. The legislation went into effect on July 1, 2015.

As previously stated, in 2018, the legislature passed Senate Bill 1154 which (1) repealed the Reserve Fund, (2) eliminated the sunset on the program, (3) authorized specific tax credit funding for each fiscal year through FY 23 and beyond, (4) capped the maximum amount per project at \$10 million, and (4) created a new category of films, Maryland small and/or independent productions (Maryland Small Films), eligible for the tax credit. The legislation also mandated that 10% of the annual authorized credit amount must be set aside for Maryland Small Films.

In 2019, the statutory requirement that in order to qualify as a Maryland Small Film an entity must be organized in Maryland for at least one year was altered to at least three months. In 2020, the BRFA fixed the annual authorized credit amount for the program at \$12 million for FY 2021 and

beyond. And in 2022, legislation was passed to include digital animation projects as eligible for film production activity tax credits.

During the 2023 legislative session, Senate Bill 452 – Income Tax – Film Production Activity Income Tax Credit – Alterations and Maryland Entertainment Council was introduced and passed. Enacted on July 1, 2023, the legislation expanded the eligibility to include documentaries and talk, reality, and game shows; altered the definition of “total direct costs” to include compensation for writers, directors and producers; increased the percentages of total direct costs that qualify for the tax credit to 30% for series and 28% for feature films and Maryland Small Films; authorized \$15 million in tax credits for FY 2024, \$17.5 million in FY 2025, \$20 million in FY 2026 and \$12 million in FY 2027 and beyond; and, removed the reporting requirement from the statute.

In addition, the legislation established the Maryland Entertainment Council (MEC) to study and make recommendations regarding Maryland’s film, television, and entertainment industry. House Bill 1487 - Maryland Entertainment Council - Alterations passed in 2024 codifying the Council within the Department of Commerce and renaming it the Maryland Entertainment Industry Council (MEIC).

Untitled Putt Putt Project Vendor List

Cover Sheet

The following list of Maryland vendors has been compiled and submitted by the production company, Carfuel Icarus Productions LLC, for its feature film *Untitled Putt Putt project*. The entities listed here provided goods or services to the production.

In addition, the production company was required to research and designate those entities that qualify as a Minority Business Enterprise (MBE) and/or are considered Small Businesses (SBE). The Department provided the production company with a link to the MBE website housed within the Department of Transportation which is the State's official certification program for MBE's, as well as a link to the eMaryland Marketplace Advantage (eMMA) website which provides a listing of Small Businesses as sanctioned by the State.

Those entities marked with a **YES / Y** were **registered** on the State sanctioned website(s) or the production had personal knowledge that the entity qualified as an MBE and/or a small business.

Those entities marked with an **UKN** (*unknown*) were **not registered** on the State sanctioned website(s). This does not mean that they are not minority owned or a small business, only that they are not registered as such with the State.

Those entities marked with an **NO / N** were **not registered** on the State sanctioned website(s) and the production had personal knowledge that the entity was neither.
